WORK & VOLUNTEER EXPERIENCE

LumiJewel, Hong Kong, China

- Chief Technology Consultant, Web Division Apr 2015 – Aug 2015
  - Acquired a domain for the company and installed the environment to manage it properly.
  - Constructed a working mailing system for the company that utilizes the newly acquired domain. Also aided in constructing a customer mailing list.
  - Developed a simple website to promote the company, and thoroughly counseled the employee on how to maintain it.

Relay For Life, Shanghai, China

- Full Stack Developer, Volunteer at Shanghai American School Oct 2014
  - Developed, in a small team of 3, a web site that manages the progress of Relay For Life hosted at our high-school. We divided the tasks evenly, so all of us completed about the same amount of workload.
  - Built the front and back end for the page that keeps track of how many laps each team has successfully completed.
  - Managed and organized all the files on a remote server. Also engineered a MySQL database structure on that server for the website to work with.

eHi Car Services, Shanghai, China

- Front End Developer, Intern Jun 2013 – Aug 2013
  - Developed and maintained the company's website in a large team of more than 30 developers.
  - Remodeled and implemented the web site's Car Rental Map service, utilizing the Baidu Map (Chinese equivalent of Google Maps) API. This was done with the help from great senior programmers in the team.
